

Correction to Notice in response to Discussion remarks

1 August 2023

In a Notice published on 26 July, the Council provided a reply to remarks on the General Board's response to the marking and assessment boycott, published on 22 June (*Reporter*, 2022–23; [6706, p. 773](#); [6710, p. 881](#)). That reply on 26 July confirmed the specific limited criteria the Board had agreed to apply when making decisions about whether to exercise its discretion under Regulation 1 of the Ordinance for the Approval of Class-lists. Although the substance of the criteria was generally conveyed, the criteria themselves were not clearly set out as such in the Board's 22 June Notice, as the 26 July reply implied them to have been. It is regretted that this may have suggested that the question in the remarks was not a fair one.
