### PROGRAMME OF PROFESSIONAL TRAINING FOR RESEARCH STUDENTS (PHD)

The Faculty runs a programme of professional training for the benefit of research students. Sessions will deal with key aspects of an academic career: library resources, applications and interviews, conference papers, the teaching of language, publishing. Students in their first year of research should attend the seminars on library resources; the other seminars may be followed over the course of the second and third years, although first-year students are welcome to take part too. In particular, before undertaking any teaching, students should attend the workshops on teaching skills designed for the Faculty by the Staff Development Office.

Apart from the workshops on teaching, all sessions will take place on Tuesday afternoons at 4 p.m. The workshops on teaching will take place on Fridays. The venue is the Graduate Centre, RFB, except for the Library session on 22 October which will be held in the Library Computer Room.
