Databases. M. W. F. 12 *E. T*

IT/COMPUTER TRAINING COURSES (EASTER AND LONG VACATIONS 2005)

The Computing Service offers the following IT training courses which are free for current staff and students of the University. Most courses start at 14.15 and end by 17.00 and are held at the New Museums Site, but there are exceptions so please check times and venues when registering. Some are entirely practical, while others take the form of a lecture and demonstration followed by a practical session, and a few consist of a lecture only. All information including times, locations and descriptions is provided on the Web (www.cam.ac.uk/cs/courses/ A printed timetable may be obtained from Computing Service Reception. Only the most popular courses are held at this time of year. The next programme after this one will be in the Michaelmas Term, starting in October 2005. In addition to instructor-led courses 'self-teach' materials are also available (see below), and the Computing Service also provides documentation on many topics in the form of handouts, information sheets and leaflets (see web page http:/www.cam.ac.uk/cs/docs/).

It is essential to register, preferably by completing the online form at www.cam.ac.uk/cs/courses/ If this is not possible, bookings may also be made by email to course-admin@ucs.cam.ac.uk, tel. (3)34662 or in person at Computing Service Reception, New Museums Site, Pembroke Street. It will not be possible to register for July courses until June. Bookings will be confirmed automatically and reminders sent a couple of days beforehand providing a valid email address is supplied. A standby system is used for oversubscribed courses; priority will be given to those who have booked in advance and who arrive in good time. If unable to attend for any reason, please cancel bookings giving as much notice as possible so that someone else may take the place, and to avoid waste of resources such as excess copies of printed notes.

It should be noted that, unless otherwise indicated, all courses assume basic computing skills; only those marked "novice friendly" are suitable for those with no previous experience.

Additions and Corrections

*   indicates that some prior knowledge or experience of the topic is required, in addition to basic computing skills, as detailed in the individual course descriptions. In all cases this may be acquired by attending one or more of the introductory courses.

Special Topics

MS R. WILLIAMS	*Teaching with VLEs* (*Virtual Learning Environments*): *Introduction**	June 23 a.m.
MR J. WARBRICK	*XML Technology: Overview**	July 21

Electronic Mail and Web Browsing

MS M. GONZALEZ	*Outlook for Email and Information Management: Introduction*	May 20 a.m.

Computer Systems (PC/Windows, Macintosh, Unix/Linux)

MR V. R. WOODLEY	*Windows: Getting the Basics Right* (*Level 1*) (Novice friendly)	May 18
MR V. R. WOODLEY	*Windows: File Handling and Desktop Skills* (*Level 2*)*	June 17
MR V. R. WOODLEY	*Windows: Keeping Your PC Safe and Secure* (*Level 3*)*	June 22
MR A. D. STONE	*Macintosh: Getting to Grips with Mac OS X* (Novice friendly)	May 4

MS S. C. ROGERS	*Illustrator: The Basics*	May 20
MR J. WARBRICK	*CGI Scripting for Programmers: Introduction** (2 sessions)	June 28–29

Self-Teach Computer Training Courses

In addition to the programme of formal courses, a selection of self-paced training material is provided for loan, or in some cases purchase, from Computing Service Reception, New Museums Site, Pembroke Street. Modules on offer at the time of going to press are listed below, but new ones are added from time to time. As well as duplicating topics covered on the taught courses, for the benefit of those who cannot attend or who prefer this method of learning, they cover other subjects and also more advanced levels. It is advisable to ring (3)34600 to check availability beforehand. A deposit of £50 is required for courses which are borrowed; this usually takes the form of a cheque which is returned when the material is brought back on time and in good, fully usable condition. Some courses require a specific version of the software to be installed on the computer being used; in some but not all cases Computing Service facilities may be used. As with most commercial software, there are licence restrictions which forbid copying of courseware, unless expressly permitted. There is a short description for each course on the web (www.cam.ac.uk/cs/courses/); printouts can be generated if these are not accessible.

Long Vacation Courses 2005

Computer Science Tripos, Part II (General)

Students intending to read for the Computer Science Tripos, Part II (General) from October 2005 are required to attend a course in Programming in Java given by Dr F. H. KING. The course will begin at 9 a.m. in the *Hopkinson Lecture Room on the New Museums Site*, on Monday, 18 July, and will end on Friday, 29 July. The course consists of lectures, demonstrations, and practical work.

Language Centre
CULP Courses in French, German, Spanish and Italian

The Language Centre is offering Cambridge University Language Programme (CULP) intensive courses in French, German, Spanish and Italian at Basic and Intermediate level, during the Long Vacation Term. The CULP interactive courses offer a mix of classroom teaching and online learning through multimedia accessible on any PC throughout the University network. Each course consists of two hours teaching each day for three weeks commencing on June 20th, plus online work. Further details including course times and registration information is available on the Language Centre website: www.langcen.cam.ac.uk <file://www.langcen.cam.ac.uk>

A J Pressland Fund Arabic Course at Basic Level

The Language Centre is offering an A J Pressland Fund Arabic course at Basic level during the Long Vacation Term. The course will run for three weeks from Monday 20th June and offers six hours of teaching over three days per week. Priority for places on the course will be given to students from the Schools of Physical, and Biological Sciences, Technology and Clinical Medicine. The course will be free of charge. Further information and an application form will be available on the Language Centre website: www.langcen.cam.ac.uk <file://www.langcen.cam.ac.uk>
