for further details and timetable amendments.

### IT/COMPUTER TRAINING COURSES (LENT TERM 2007)

The Computing Service offers the following IT training courses which are free for current staff and students of the University. Most courses start at 14.15 and end by 17.00 and are held at the New Museums Site, but there are exceptions so please check times and venues when registering. Some are entirely practical, while others take the form of a lecture and demonstration followed by a practical session, and a few consist of a lecture only. All information including times, locations and descriptions is provided on the Web ([www.cam.ac.uk/cs/courses/](http://www.cam.ac.uk/cs/courses/)). A printed timetable may be obtained from Computing Service Reception. The next programme after this one will be in the Easter Term, starting in mid/late April 2007. In addition to instructor-led courses 'self-teach' materials are also available (see below), and the Computing Service also provides documentation on many topics in the form of handouts, information sheets and leaflets (see web page <http://www.cam.ac.uk/cs/docs/>).

It is essential to register, preferably by completing the online form at [www.cam.ac.uk/cs/courses/](http://www.cam.ac.uk/cs/courses/). If this is not possible, bookings may also be made by email to [course-admin@ucs.cam.ac.uk](mailto:course-admin@ucs.cam.ac.uk), tel. (3)34662 or in person at Computing Service Reception, New Museums Site, Pembroke Street. Bookings will be confirmed automatically and reminders sent a couple of days beforehand providing a valid email address is supplied. A standby system is used for oversubscribed courses; priority will be given to those who have booked in advance and who arrive in good time. If unable to attend for any reason, please cancel bookings giving as much notice as possible so that someone else may take the place, and to avoid waste of resources such as excess copies of printed notes.

It should be noted that, unless otherwise indicated, all courses assume basic computing skills; only those marked "novice friendly" are suitable for those with no previous experience.

\* indicates that some prior knowledge or experience of the topic is required, in addition to basic computing skills, as detailed in the individual course descriptions. In all cases this may be acquired by attending one or more of the introductory courses.

#### Special Topics

MR R. J. DOWLING

*Scientific Computing: Introduction* (3 sessions)

Jan. 18

MS S. MACRAE

*Dragon NaturallySpeaking: Voice Recognition Software\**

Feb. 19 a.m.

DR P. HAZEL

*Pattern Matching Using Regular Expressions* (2 sessions)

Feb. 12–13

#### Electronic Mail

MR A. D. STONE

*Email: Managing Your Messages and Saving Time*

Feb. 9

MS M. GONZALEZ

*Outlook for Email and Information Management: Introduction*

Jan. 30

#### Computer Systems (PC/Windows, Macintosh, Unix/Linux)

MR N. M. MACLAREN	<i>Programming: Mixed Language Linking*</i>	Mar. 8

### Self-Teach Computer Training Courses

In addition to the programme of formal courses, a selection of self-paced training material is provided for loan, or in some cases purchase, from Computing Service Reception, New Museums Site, Pembroke Street. Modules on offer at the time of going to press are listed below, but new ones are added from time to time. As well as duplicating topics covered on the taught courses, for the benefit of those who cannot attend or who prefer this method of

## Additions and Corrections

learning, they cover other subjects and also more advanced volumes. It is advisable to ring (3)34600 to check availability beforehand. A deposit of £50 is required for courses which are borrowed; this usually takes the form of a cheque which is returned when the material is brought back on time and in good, fully usable condition. Some courses require a specific version of the software to be installed on the computer being used; in some but not all cases Computing Service facilities may be used. As with most commercial software, there are licence restrictions which forbid copying of courseware, unless expressly permitted. There is a short description for each course on the web ([www.cam.ac.uk/cs/courses/](http://www.cam.ac.uk/cs/courses/)); printouts can be generated if these are not accessible.

Access 2003: 3 volumes (Win)	CDs for loan (deposit).
Access 2003: 3 levels† (Win)	Workbook with CD for loan (deposit).

## Long Vacation Courses 2007

### Computer Science Tripos, Part II (General)

Students intending to read for the Computer Science Tripos, Part II (General) from October 2007 are required to attend a course in Programming in Java given by Dr F. H. KING. The course will begin at 9 a.m. in the *Hopkinson Lecture Room on the New Museums Site*, on Monday, 16 July, and will end on Friday, 27 July. The course consists of lectures, demonstrations, and practical work.

### Zoology

A field course will be provided for students who intend to take Part II Zoology in 2007–2008. The course will begin on Saturday, 25 August 2007 and ends on Wednesday 5 September 2007 and will be held on the Norfolk coast. Students will be required to make a small contribution towards the costs.

Students who wish to take Part II Zoology, but want to do other biological work during the Long Vacation, instead of the field course, should discuss their plans with the Part II Advisor/Course Co-ordinator, Dr N. Mundy.

The *Cambridge University Reporter* appears on Wednesdays during Term. Special Numbers are also published from time to time.
