Discussion on Tuesday, 1 May 2018

The Vice-Chancellor invites those qualified under the regulations for Discussions (*Statutes and Ordinances*, p. 105) to attend a Discussion in the Senate-House on Tuesday, 1 May 2018 at 2 p.m., for the discussion of:

1. Topic of concern to the University: Standard of proof applied in student disciplinary cases (*Reporter*, 2017–18, 6496, p. 396 and 6497, p. 413).
2. Report of the General Board, dated 27 March 2018, on the establishment and re-establishment of certain Professorships (*Reporter*, 6501, 2017–18, p. 471).
3. Report of the Council, dated 18 April 2018, on external finance for income-generating projects including housing solutions in the non-operational estate (p. 514).
4. Report of the Council, dated 18 April 2018, on a new University nursery building (p. 516).

Further information on Discussions, including details on format and attendance, is provided at <https://www.governance.cam.ac.uk/governance/decision-making/discussions/>.

Report of the Council on membership of the Regent House for Directors of Research and Principal Research Associates: Notice in response to Discussion remarks

16 April 2018

The Council has received the remarks made at the Discussion on 20 February 2018 (*Reporter*, 6497, 2017–18, p. 438) concerning the above Report (*Reporter*, 6494, 2017–18, p. 385).

The Council notes that this Report proposes the addition of Directors of Research and Principal Research Associates to the membership of the Regent House. For reasons explained in the Report, the holders of these appointments are in a special category, having already been the subject of a previous recommendation by Council that they be added to the list of persons qualifying as members of the Regent House. The appointments in question comprise the most senior unestablished research roles, are generically akin to those already listed in paragraph (i) of the Ordinance on membership of the Regent House and in particular, in the case of Directorships of Research, are frequently held by those who have formerly been members of the Regent House as University officers up until the retiring age. The Council agrees with Dr Kell that a review of the membership of the Regent House is overdue and, as Dr Kell notes, it has appointed a Governance Review Working Group to take forward that work (see *Reporter*, 6464, 2016–17, p. 508). The Working Group has been asked to consider the position of postdoctoral researchers as part of this review. It has also been asked to consider the position of retired members of University staff who are not College Fellows but continue to contribute to the work of the University, as described by Professor Anderson, and of unestablished post-holders, as noted by Professor Evans.

The Council notes Professor Abulafia's remarks relating to the Council's response to the initiated Grace concerning the age limit on membership of the Regent House (*Reporter*, 6494, 2017–18, p. 379). It does not agree with Professor Abulafia that there is a time limit specified in Statute or Ordinance within which the Council must respond to an initiated Grace or amendment. There is a time limit in Special Ordinance A (i) 7(a), but it concerns the submission of a Grace or amendment following rejection of the Council's decision to withhold its authorization. It does, however, agree that the Council should respond promptly on receipt of Graces and amendments initiated by members of the Regent House and has made an amendment to its Standing Orders to note that it shall normally decide whether or not to authorize submission of such a Grace or amendment, in accordance with Special Ordinance A (i) 7(a), by the end of the term next following its receipt.

The Council is submitting a Grace (Grace 1, p. 517) for the approval of the Report's recommendations.

Examinations, 2018

16 April 2018

As a consequence of the industrial action in the Lent Term 2018, there remains a risk that it will not be possible to appoint External Examiners in time for the examinations taking place in the Easter Term 2018 for the degrees of Master of Philosophy by advanced study and Master of Research. The Council is submitting Graces 3 and 4 (p. 517) to enable those examinations to proceed in the absence of an External Examiner. The Council hopes that it will not be necessary to use the emergency powers conferred by these Graces, but it thinks it a reasonable precaution to ensure that such powers are available. The lists of Examiners appointed for the Easter Term examinations are published on pp. 499–510.

Data Protection Policy

The Council has approved a new Data Protection Policy, which has been issued as part of the University's preparations for the forthcoming General Data Protection Regulation. The policy is published on the Information Compliance website at <https://www.information-compliance.admin.cam.ac.uk/data-protection>

Anglo Saxon, Norse, and Celtic Tripos:

Preliminary Examinations for Part I and Part II: Professor P. Russell (Chair); Dr A. Bonner (Assistant Chair).
Parts I and II: Professor P. Russell (Chair); Dr A. Bonner (Assistant Chair).

Archaeology Tripos:

Part I: Dr H. Papazian (Senior).

Architecture Tripos:

Part IA: Ms M. Steane (Chair).
Part IB: Dr J. Campbell (Chair).
Part II: Professor F. Penz (Chair).

Asian and Middle Eastern Studies:

Parts IA, IB, and II: Dr Y. Peleg (Chair); Dr M. Rand (Assistant Chair).

Chemical Engineering Tripos:

Part I: Professor G. Moggridge (Chair).
Part IIa: Professor D. I. Wilson (Chair).
Part IIb: Dr J. Zeitler (Chair).

Classical Tripos:

Preliminary Examination for Part IA: Dr L. Prauscello (Chair).
Part IA: Dr L. Prauscello (Chair).
Part IB: Dr R. Thompson (Chair).
Preliminary Examination for Part II: Professor T. Whitmarsh (Chair).
Part II: Professor T. Whitmarsh (Chair).

Computer Science Tripos:

Part IA: Dr R. Mullins (Chair); Dr R. Mortier (Senior).
Part IB: Dr R. Mullins (Chair); Dr A. Beresford (Senior).
Part II: Dr R. Mullins (Chair).
Part III: Dr R. Watson (Chair); Dr M. Jamnik (Senior).

Economics Tripos:

Part I: Dr M. Weeks (Chair).
Part IIa: Professor R. Evans (Chair).
Part IIb: Dr T. Aidt (Chair).

Education Tripos:

Part IA: Professor S. Robertson (Chair); Dr C. Burke (Senior).
Part I: Dr M. Evans (Chair); Dr G. Horrell (Senior).
Preliminary Examination for Part II: Dr M. Evans (Chair); Dr G. Horrell (Senior).
Part II: Dr M. Morrison (Chair); Dr M. Ellefson (Senior).

Engineering Tripos:

Part IA: Professor R. Penty (Chair).
Part IB: Professor J. Clarkson (Chair).
Part IIa: Professor S. Godsill (Chair).
Part IIb: Professor J. Woodhouse (Chair).

English Tripos:

Preliminary Examination for Part I: Dr A. Houen (Chair); Dr D. Hillman (Senior).
Part I: Dr A. Houen (Chair); Dr D. Hillman (Senior).
Preliminary Examination for Part II: Dr H. Lees-Jeffries (Chair); Dr J. Tasioulas (Assistant Chair).
Part II: Dr H. Lees-Jeffries (Chair); Dr J. Tasioulas (Assistant Chair).

Geographical Tripos:

Parts IA and IB: Dr A. Reid (Chair).
Part II: Dr M. Herzog (Chair).

Historical Tripos:

Preliminary Examination for Part I: Dr C. Watkins (Chair).

Part I: Professor C. Muldrew (Chair).

Preliminary Examination for Part II: Professor S. Szreter (Chair).

Part II: Professor S. Szreter (Chair).

History of Art Tripos:

Parts I, IIA, and IIB: Professor P. Binski (Chair).

REGULATIONS FOR EXAMINATIONS

Diplomas and Certificates open to non-members of the University

(*Statutes and Ordinances*, p. 590)

With effect from 1 October 2018

The General Board, on the recommendation of the Strategic Committee of the Institute of Continuing Education, has approved the following amendments and additions to the Schedule of Diplomas and Certificates open to non-members of the University:

*Diplomas**Institute of Continuing Education*

By amending the titles of certain Diplomas as follows:

<i>From</i>	<i>to</i>
Diploma in Archaeology I	Diploma in Archaeology: Death and the Ancient World
Diploma in Archaeology II	Diploma in Archaeology: Conflict, History, and Heritage
Diploma in Archaeology III	Diploma in Archaeology: Methods and Practice
Diploma in English Literature I	Diploma in English Literature: Literature and Criticism
Diploma in English Literature II	Diploma in English Literature: Literature Past and Present

*Certificates**Institute of Continuing Education*

By amending the titles of certain Certificates as follows:

<i>From</i>	<i>to</i>
Certificate in Film Studies I	Certificate in Film Studies: Form, Genre, and History
Certificate in Film Studies II	Certificate in Film Studies: Approaches to Film Studies

By adding the following titles to the list of Certificates:

- Certificate in Operational Business and Management
- Certificate in Strategic Business and Management
- Certificate of Higher Education in Business and Management

FORM AND CONDUCT OF EXAMINATIONS, 2018

Notices by Faculty Boards, or other bodies concerned, of changes to the form and conduct of certain examinations to be held in the Easter Term 2018, approved exceptionally following recent industrial action, are published below. Complete details of the form and conduct of all examinations are available from the Faculties or Departments concerned.

Linguistics Tripos, Part IIb

The Faculty Board of Modern and Medieval Languages gives notice that, exceptionally, the form of certain papers for the examinations to be held in 2018 will be changed as follows:

PART IIb

Paper 9. – Syntax (also serves as Paper Li.9 of the Modern and Medieval Languages Tripos)

Answer **three** questions.

Modern and Medieval Languages Tripos, Parts Ib and II

The Faculty Board of Modern and Medieval Languages gives notice that, exceptionally, the form of certain papers for the examinations to be held in 2018 will be changed as follows:

PART Ib

Paper Fr.6. – Innovation and upheaval: deformation and reformulation in the 20th and 21st centuries (also serves as Paper 10D of Part I of the English Tripos)

Answer **three** questions from any section. No more than **one** question may be taken from Section C.

Paper Pg.1. – Introduction to the language, literatures, and cultures of Portuguese speaking countries (also serves as Paper 10L of Part I of the English Tripos)

Answer **three** questions from any section. Answers can focus on texts from any country (Portugal, Brazil, Mozambique, Angola) and on any material (film, literature, visual art).

Paper Pg.3. – Introduction to the language, literatures, and cultures of the Portuguese-speaking world

Paper Pg.3C (cultural element)

Candidates will be required to answer **two** questions. Answers can be drawn from **any topic** and deal with **any country** (Portugal, Brazil, Mozambique, Angola) and **any media** (literature, film, visual culture).

Paper Sl.6. – Russian culture after 1953

The questions in Section A of the exam paper will be adjusted. The existing format of the paper is such that students are asked to answer one out of three questions in Section A. Questions are on two set texts. These include an essay question on one set text, a commentary on another, and a comparative essay on both set texts. The comparative question will be loosened by making it possible to answer with respect to a single set text.

PART II

Paper Fr.11. – Gender, desire, and power in 19th century French culture (also serves as Paper 38 of Part II of the English Tripos)

The rubric for Section A only will be adjusted to allow candidates to answer without having to draw on the texts from the final unit of study. Candidates will be asked to respond to a proposition with references to at least three texts studied.

Paper Fr.14. – A special topic in French studies (A) to be specified by the Faculty Board from time to time (Theatre: theory and practice, 1600–2000)

Answer **three** questions, including at least **one** from Section A and **one** from Section B. **One**, and **only one**, of the three questions answered **must** be a commentary.

Paper Ge.11. – History of the German language (also serves as Paper 22 of the Linguistics Tripos)

Answer **three** questions. You may answer no more than **two** questions from one topic. Candidates may not answer **more than two** commentary questions.

Paper IL.1. – Ibero-American cinema

Answer **three** questions. Scripts as a whole must show knowledge of cinema from **two** of the paper's specified regions (Europe, Latin America, Africa) and **two** languages (Spanish, Portuguese, Catalan).

Paper It.9. – Text and image

Answer **two or three** questions.

Paper Pg.3. – Introduction to the language, literatures, and cultures of the Portuguese-speaking world

Paper Pg.3C (cultural element)

Candidates will be required to answer **two** questions. Answers can be drawn from **any topic** and deal with **any country** (Portugal, Brazil, Mozambique, Angola) and **any media** (literature, film, visual culture).

Paper Sl.6. – Russian culture after 1953

The questions in Section A of the exam paper will be adjusted. The existing format of the paper is such that students are asked to answer one out of three questions in Section A. Questions are on two set texts. These include an essay question on one set text, a commentary on another, and a comparative essay on both set texts. The comparative question will be loosened by making it possible to answer with respect to a single set text.

REPORTS

Report of the Council on external finance for income-generating projects including housing solutions in the non-operational estate

The COUNCIL begs leave to report to the University as follows:

Current external finance and authority given

1. Further to Regent House approval on 18 February 2011, the University issued a public bond for £350m on 17 October 2012 at a fixed interest rate of 3.75% (*Reporter*, 6213, 2010–11, p. 490; 6280, 2012–13, p. 35). The bond, with proceeds now fully utilized on Phase 1 of North West Cambridge, falls due for repayment in 2052.

2. In March 2015, Regent House approval was given in principle for further borrowings of up to £300m for income-generating projects, should the business opportunities be confirmed and borrowing conditions remain favourable. This authority was renewed in 2017 for a further two years to May 2019.

Proposal to increase the authority

3. For reasons described below, the Council is now seeking to raise the authority to arrange further external finance from £300m up to a total of £600m.

4. With very low interest rates currently available, by investing the proceeds of borrowing in projects that produce revenue, the intention is to generate, over time, a net surplus. Any net surplus would then be available to support the core strategic mission of the University, benefiting the organization over future generations.

5. While additional external borrowings would increase the University's total long-term balance sheet debt, the Council does not consider that external borrowings at the levels considered in this Report would have an impact on the University's ability to fund any increase to employer pension contributions within the ranges under discussion in the context of USS (for example, were Rule 76.4 to be triggered, employer contributions would rise from 18% to 24.11%).

Development of the University's estate

6. The University has historically funded its capital programme for the academic operational estate through a combination of external government grants, philanthropy, and receipts from Cambridge Assessment and Cambridge University Press. As the University continues to embark on an extended period of intense strategic capital development, affecting most of its principal sites, the Capital Plan, under the management of the Planning and Resources Committee, projects the likely capital aspirations of the University over a 20-year horizon to be some £4bn. This is an ambitious and financially demanding programme, particularly given the loss of capital grants from the government. Philanthropy must play its part through the coming campaign, and receipts from Cambridge Assessment and Cambridge University Press will continue for the present to be channelled into the Capital Fund.

7. However, these funds are insufficient in themselves to support capital developments for the operational estate. For that part of the University's estate, therefore, the Planning and Resources Committee is undertaking a more robust prioritization of the University's operational capital building programme.

The University's non-operational estate

8. In parallel, there is also a requirement to continue to invest in our non-operational capital estate in order to support the University's long-term strategic objectives. Developments that generate income, with which the interest and principal of any borrowed funds could be repaid, while also generating a long-term alternative income stream to support the University's core mission and student interest, are attractive opportunities and it is in these areas where borrowed funds would be applied.

9. New external finance would thus directly benefit important non-operational estate projects which provide tangible, long-term return of financial and strategic value to the University. In particular, it is envisaged that a significant proportion of the proceeds would be targeted towards the critical provision of further housing solutions.

10. The Council continues to consider the most appropriate approach to the governance, oversight, and operational management of the growing portfolio of non-operational estate, including the involvement of appropriate external specialist advisers.

Potential projects for external finance

11. The University has a number of income-generating proposals at varying levels of maturity, which collectively indicate a demand well in excess of £600m. These projects all have the potential to deliver commercial risk-adjusted returns. While the targeted use of proceeds from the financing would not be specified in the external documentation, it is anticipated that a significant proportion (currently forecast at £300m–£400m) would be invested in North West Cambridge Phase 2 if approved (in early 2019). If the second phase of this development were not to be approved, it is anticipated that a similar level of funding would be required for alternative projects to meet the essential need for further housing, especially for key workers.

12. Additional income-generating projects are likely to include further rental or shared ownership housing to meet needs not fully addressed by North West Cambridge, the redevelopment of the Royal Cambridge Hotel, commercial development of the old Cambridge Assessment buildings and the Old Press Mill Lane site, the commercial research development strategy at West and North West Cambridge, and projects targeting environmental benefits, provided adequate risk-adjusted returns are met.

Current market conditions for borrowing

13. Over the period since the University's 2012 public bond issue, interest rates have continued to fall and the spread to underlying gilts has narrowed. The 2012 bond is currently yielding less than 3%. Significantly, pension fund reform has led to increasing demand for long-dated assets and the market continues to demonstrate historically low long-dated gilt yields. The current strength of the Sterling debt capital markets can be seen in the advent of bonds with a 100-year maturity, catering to a demand from investors of highly rated, ultra-long debt issues.

14. There remains strong demand for fixed-rate senior bonds, repayable at maturity (the same format as the University's 2012 bond), with a current optimum interest (coupon) rate achievable for terms (tenors) of 50–60 years.

15. The Council recommends that the University also consider a proportion (no more than half of new borrowings) of inflation-linked bonds, reflecting the immature, but rapidly developing market demand for such investments. Amortising CPI-linked bonds (under which the principal is progressively paid back over time) of similar tenor to the fixed-rate bonds above, have near-zero current coupon rates, with the potential to reduce the aggregate interest rates of the combined borrowings materially. While it should be noted that the interest and principal repayments of CPI-linked bonds would increase each year by CPI inflation, given the likely linkage of project income streams (e.g. property rentals) to CPI, there would be a natural internal hedge.

16. A combination of both fixed-rate and CPI-linked borrowings would also provide a hedge against long-term high or low inflation outcomes, respectively. A floor and cap would be included in the CPI-linked element to remove University exposures to large variations in inflation outcomes.

17. The Council takes the view that there is now a case for further borrowing and that the favourable market conditions, which are attractive on a historic basis, are unlikely to persist. There remains a need for new finance,

directly to benefit projects for which there is a tangible long-term return of financial value to the University and indirectly to support academic capital projects by relieving pressure on the University's cash flows required for operational capital expenditure.

18. It was vital to the efficient and professional issue of the 2012 public bond that the Regent House delegated power to the Council for a defined, renewable period, on the advice of its Finance Committee, to take forward plans for borrowing against a maximum total value. There are various sources of external finance that the University could seek and factors of cost, flexibility, tenor, risk, and affordability, which the Finance Committee would consider. Any proposals would be in the context of the current financial constraints, risks, and challenging outlook. The process of negotiation with potential lenders is complex and confidential. The Council, with the advice of the Finance Committee, wishes to have the flexibility to move swiftly to secure external finance while market conditions are attractive or in circumstances when conditions could move adversely. As a consequence, the Council is seeking similar powers from the Regent House as those approved by Grace in 2015 to determine whether, when, and how much to borrow, and by what instrument. If the recommendations of this Report are approved, at its meeting in May 2018 the Council will be asked whether it wishes to issue a bond and, if it does, to agree the parameters for its issue. If the Council is content, a sub-committee of the Finance Committee, acting under delegated authority, will determine whether the conditions are right to act on that approval.

19. Additional external borrowings of £600m would increase the University's total long-term balance sheet debt to £946m or 19.5% of net assets.

20. For clarity, the Council wishes to confirm that the authority for advancing external borrowings sought in this Report would not have an impact on normal University governance processes for seeking the approval of individual development projects.

Recommendation

21. The Council recommends:

- I. That the Council be given authority in advance to arrange, on the advice of the Finance Committee, external finance for income-generating projects up to a total additional amount of £600m, potentially including an element of CPI-linked borrowings with the advantages and risks noted above.
- II. That the higher limit of authority will apply for the remainder of the existing period of authority to May 2019. To the extent that this authority is not fully used, the Council would request continuation of the authority on a rolling two-year basis annually by Grace.

NOTE OF DISSENT

We have yet to see a sufficiently clear business case with enough detail on the funding model and how repayments for a new bond will be achieved. We should not risk our AAA rating and put the next generation in this sort of debt until we have clarified more of the detail. The University's record on the first phase of North West Cambridge does not inspire confidence; the development was two years late and £100m over budget. Work continues to update the existing rental model to ensure that the current bond liabilities are fully covered in the expected timescale so that there will be no further calls on the Chest. As Trustees we should insist on greater financial and procedural clarity surrounding a second bond before proceeding.

Report of the Council on a new University nursery building

The COUNCIL begs leave to report to the University as follows:

1. This Report is seeking approval for a new nursery building on Harrison Drive, off Hills Road. The nursery would be built on land leased from Homerton College over a 99-year term which commenced in January 2005; the space is currently being used as a car park by the Faculty of Education. Car parking for the Faculty elsewhere on the Homerton site is under discussion with the College.

2. The expansion of existing nursery services is a priority for the University and regarded as critical to the recruitment and retention of staff. The new building would provide an additional 100 spaces for children of staff and students, and would make a significant contribution to reducing the current waiting list, which far exceeds existing capacity.

3. The new building shown in the accompanying plan would be constructed in a single phase at an estimated cost of £3.1m, and would provide a total gross internal area of 620m². Once the design has achieved RIBA Stage 3, the intention is for the proposal to be tendered to a nursery provider/developer for both build and provision of services.

6. The Council recommends:

- I. That approval be given for the construction of a new University nursery building as described in this Report.
- II. That the Director of Estate Strategy be authorized to apply for detailed planning permission in due course.

The project will be undertaken at cost to the nursery provider in return for a lease to occupy the building and provide nursery services to the University.

4. The University has not previously undertaken a project with this financial model, and it has been agreed that it will be managed under the Capital Projects Process but with additional approvals sought from the Finance Committee at stages throughout that process. The overall outline proposal was approved by the Finance Committee at its meeting on 7 June 2017. A Concept Case for the project was approved by the Planning and Resources Committee (PRC) on 13 December 2017. Before the project is implemented, it will require a Full Case to be considered and approved by the PRC, and to have final approval from the Finance Committee.

5. A site plan is shown below. Drawings of the proposed building are displayed for the information of the University in the Schools Arcade, and are reproduced online at http://www.admin.cam.ac.uk/cam-only/offices/planning/building/plans_and_drawings/.
