University Composition Fees

16 July 2018

In the following Notice the Council proposes amendments to the fees for certain categories of students as set out in the Table of Fees attached to the regulations for University Composition Fees.

A. Home and EU Undergraduate and certain other fees in 2019–20

Cost of an undergraduate education

1. Ordinances provide that recommendations for the University Composition Fees to be charged to Home and EU undergraduate students be accompanied by an analysis of the cost of an undergraduate education agreed by the General Board and the Council following consultation with the Colleges (*Statutes and Ordinances*, p. 152; Grace 13 of 26 May 2011). The outcome of the agreed calculation for 2016–17 is an average cost per student of £19.4k (showing an increase over the 2015–16 calculation, which was £18.5k) as follows:

2016–17	£k/UG FTE
University expenditure	14.8
Less: College fee	(4.5)
Net University expenditure	10.3
Plus: College expenditure	9.1
Total cost	19.4

Details of the analysis are provided on the Planning and Resources website.¹

Home and EU undergraduate students subject to the regulated maximum fee (Table A in the attached Schedule)

2. On 2 July 2018 the Minister of State for Universities, Science, Research, and Innovation confirmed² that for the 2018–19 academical year, the maximum tuition fee caps will be maintained at 2018–19 academical year levels. The maximum tuition fee for full-time courses will remain £9,250 in 2019–20. The Minister also confirmed that EU students who commence courses in 2019–20 will remain eligible for Home fee status for the duration of their courses.

3. The Council therefore proposes that Home/EU students admitted on or after 1 September 2017 will be liable for a fee of £9,250 in 2019–20. The cap and fee may be increased for those students and for new entrants in future years.

4. Although on certain conditions the cap might also have been increased for continuing students starting before 1 September 2017, no increase was applied and the Council again proposes that Home/EU New Regime students admitted before 1 September 2017 be liable for a fee of £9,000 in 2019–20 and that the fee be similarly fixed for any remaining Old Regime students.

5. Table A in the Schedule sets out the fees subject to the cap, including the fee for the year abroad. Although a higher rate of fee is permitted for non-Erasmus students on work placements abroad, the Council has agreed for the present that the lower figure that applies to Erasmus students be charged to students on both work and study placements.

B. ELQ students (Table B)

6. Fees for ELQ students on ‘non-exempt’ courses in 2019–20 were approved by Grace 1 of 10 January 2018 and fees for 2019–20 proposed for ELQ students on exempt courses are in line with the regulated fees as described above.

7. The regulated fee continues to apply to Home/EU students on ELQ exempt courses (Architecture, Medicine, and Veterinary Medicine, and the P.G.C.E.).

C. Postgraduate Fees (Table C)

Fees for certain other postgraduate courses in 2019–20

8. Fees for the courses in Table C in the Schedule shall be as set out in the table.

9. The fees for the M.Phil. Degree in Architecture and Urban Design are regulated, and are in line with the regulated fees as described above.

10. The fees for the M.St. Degree in Healthcare Data: Informatics, Innovation, and Commercialization were omitted from earlier schedules.

The Council is accordingly submitting a Grace (Grace 1, p. 834) for the approval of the fees set out in the Schedule attached to this Notice.

N.B.: An error in the Undergraduate Prospectus may have misled ELQ students to believe the fee remained at the level of that charged to a publicly-funded undergraduate. The addition to the fee in 2015–16 (and 2016–17) for students admitted in 2014 or 2015 will be waived so that the University fee charged will be the publicly-funded rate applicable for that year.

Office of Pro-Vice-Chancellor

16 July 2018

The Council gives notice that, after consultation with the General Board, and on the recommendation of the Nominating Committee for the appointment and reappointment of Pro-Vice-Chancellors (comprising the Vice-Chancellor as Chair; Professor Ross Anderson, Professor Michael Proctor, and Ms Sara Weller (members of the Council); and Professor Abigail Fowden and Professor Martin Millett (members of the General Board)), it has agreed to reappoint **Professor Eilís Ferran, CTH**, as Pro-Vice-Chancellor (Institutional and International Relations) for three years from 1 October 2018 and **Professor Chris Abell, CHR**, as Pro-Vice-Chancellor (Research) for three years from 1 January 2019.

Topic of concern to the University (Universities Superannuation Scheme): Notice in response to Discussion remarks

16 July 2018

The Council has received the remarks made at the Discussion on 20 March 2018 (*Reporter*, 6501, 2017–18, p. 483) regarding the topic of concern to the University on the Universities Superannuation Scheme (USS) (*Reporter*, 6497, 2017–18, p. 412). It apologizes for the delay in providing this response.

In the period since the Discussion, the Regent House has endorsed the Council's decision to withhold authorization of a Grace initiated by members of the Regent House concerning the USS¹ and has also approved Grace 1 of 2 May 2018, which repeated paragraphs (i)–(iii) of that initiated Grace and also included new commitments in paragraphs (v)–(vii). These commitments address some of the points made by the speakers in their remarks at the 20 March Discussion, including recognition of the value of adequate pension provision, and acceptance of the level of risk implied by the Trustee's proposals and assumptions in its September 2017 valuation.

The Council wishes to acknowledge its agreement with the speakers on a number of issues including:

- the high value placed on defined benefits by the University's USS members;
- the importance of good lines of communication; updates, including copies of emails forwarded to staff members, access to relevant documents, and recordings of open meetings are available at <https://www.staff.admin.cam.ac.uk/subjects/pensions>;
- the care that needs to be taken to assess the impact of any changes to pension provision on different groups within the University's USS membership, including but not limited to women and lower-paid staff.

A briefing dated 26 June 2018 notes that the Joint Expert Panel, composed of seven members (three appointed by UCU, three by UUK, plus an independent Chair), has now been formed. The principal terms of its remit are to make an assessment of the 2017 valuation, looking in particular at the assumptions and associated tests that formed the basis of the valuation, and to agree key principles to underpin the future joint approach of UUK and UCU to the valuation of USS. It is expected to report in September 2018. The Council intends to publish a Notice on its consideration of the Panel's report as soon as practicable.

¹ Approved by Grace 2 of 6 June 2018.

Joint Report of the Council and the General Board on Professorships established for a fixed term: Notice in response to Discussion remarks

16 July 2018

The Council has received the remarks of Professor Evans made at the Discussion on 19 June 2018 (*Reporter*, 6512, 2017–18, p. 750) concerning the above Report (*Reporter*, 6509, 2017–18, p. 678). The Council has consulted with the General Board in preparing its response.

The Council has put forward the proposed changes to address serious concerns that have arisen in relation to the lack of flexibility in determining the terms of Professorships where they are funded externally, such as those to which the Directors of Medical Research Council Units are appointed, or where an honorary contract from an NHS body is needed to enable the holder of a Professorship to practice clinically. A coterminous appointment would enable the University to terminate the contract of the holder of the Professorship on the happening of a specified event, such as the ending of an interdependent appointment with an affiliated institution, or the withdrawal of an NHS honorary clinical contract.

The Council believes that the potential financial exposure for the University acquired by accepting the liability to fund such a Professorship for the balance of an individual's career after a necessarily-linked position has ceased to be held, is unacceptable and an inappropriate use of the University's charitable funds. The only other alternative to maintaining the *status quo* would be not to offer Professorships to such individuals, but this would be unacceptable to some of the University's most valued funders and likely to deter the best candidates from applying.

The Council is therefore submitting a Grace (Grace 2, p. 834) for the approval of the recommendations of this Report.

Report of the General Board on Senior Academic Promotions: Notice in response to Discussion remarks

16 July 2018

The Council has considered the remarks made at the Discussion on 26 June 2018 (*Reporter*, 6513, 2017–18, p. 795) about the above Report (*Reporter*, 6510, 2017–18, p. 694). The Council has consulted with the General Board in submitting this response.

The Council notes the comments of Dr Morgan concerning the question of budgetary restraint. The Council agrees with Dr Morgan that, as stated in the Report, the cost of the promotions announced will be £722,479 in the first year and comments that a majority of unsuccessful applicants met the criteria for promotion but were not promoted because this is a competitive exercise and there are budgetary constraints. However, the Council comments, as stated in the Board's Report on arrangements for senior academic promotions (*Reporter*, 6505, 2017–18, p. 556), that making appropriate budgetary provision so that deserving candidates receive appropriate recognition and reward is a key principle which is proposed for the next stage, when moving to implementation of an Academic Career Pathway (ACP) Scheme. Also, as stated in the Council's response to remarks made on that Report (*Reporter*, 6511, 2017–18, p. 707), the evaluative criteria to be proposed when taking forward full implementation of an ACP Scheme should aid transparency and fairness concerning the required standards for promotion, aided by examples of excellence which reflect faculty norms.

The Council is submitting a Grace (Grace 3, p. 834) for the approval of the recommendations of this Report.

GROUP D

B.Th.41 Further studies in Christian doctrine

By including a footnote to indicate that, in 2018–19, this paper also serves as paper C.11 *Truth, God, and Metaphysics* in the Theology, Religion, and Philosophy of Religion Tripos.

And by amending the description of the paper so as to read:

What is truth? Is it a question of correct mental representation of external reality? Or is it a dimension of this reality as such? Is it epistemological, or is it also ontological? Do we have access to truth through detached observation or through holistic intuition? If the latter, how might our sensing and embodiment be involved, as well as our minds? If truth is not a given, is it rather a gift? Is an intuitive contact with truth merely pragmatic and anthropomorphic, or does it access meaningful structures which extend beyond the human? If that is the case, do these point towards transcendence? Without the divine and the eternal, would truth be merely temporary, and could this count as truth at all? This course will explore these questions, seeking to relate philosophical understandings of truth, as correspondence, coherence, and disclosure, respectively, to theological theories for which truth is both a matter of participation in eternal verity and the arrival of truth in the course of time.

D1(a) Old Testament

By amending the description of the paper so as to read:

This paper will examine some of the defining intellectual and methodological issues for modern biblical studies. The Faculty Board will advise on primary texts for special study.

This paper is concerned with a topic in world Christianity as specified from time to time by the Faculty Board.
